History books focus on the big events, the famous and the infamous. Through the Migration Museum courtyard pavers we have the chance to celebrate the importance of ordinary people in history, such as our family, and enrich our understanding of the evolution of South Australia's diverse community.

Share your legacy for generations to come

Each paver in the Migration Museum’s Settlement Square represents a unique story. A gift from just \$300 recognises the people behind our South Australian stories while supporting the Migration Museum.

When you make a donation, you’re invited to dedicate a paver to anyone you wish and, if you choose, the story of the person/s on the paver is added to our donor database.

Demonstrate your connection to South Australia and add to the 2800 engraved pavers that represent families and individuals from over 90 countries.

The first of its kind in the world, the Migration Museum tells the stories of South Australians that show their achievements and promote our cultural diversity. The Migration Museum Foundation has supported the Migration Museum through its paver project since 2000.

All donations assist this important cultural institution to showcase our shared history through exhibition galleries, education and community programs and special events.

We all belong here.

Thank you for your generous support.
